# Files Fly in July

### What is the "Files Fly in July" event?

The Capitol Complex is participating in a clean out your office day to recycle paper products and recycle reusable office supplies such as binder clips, manila folders and 3-ring binders. Nearly seven tons of paper was recycled through last year's event.

### Who is participating?

All state employees on the Capitol Complex are invited to take this opportunity to clean your office files and documents or records that have exceeded their retention period.

### When will this event take place?

July 20<sup>th</sup> Capitol Complex Maintenance staff and Facility Coordinators and Building volunteers will be collecting recyclable materials. Designated offices on specified floors will be utilized for employees to bring their reusable office equipment such as binders, clips, folders and pens to be reused by their agencies.

#### What can be discarded?

Employees must make sure records they are discarding have exceeded the retention period required by law.

### What does the law define as a record?

As state employees, we all bear the responsibility of managing records – all records – whether they are records that must be kept permanently or records that are kept for a pre-determined length of time and then destroyed. From meeting minutes to emergency operations plans to mailing lists, each record series has a record series retention and disposition schedule that indicates the length of time the records must be held in the office before they can be destroyed by an agency, transferred to the State Records Center for a predetermined length of time prior to destruction or transferred to the State Archives for permanent retention.

- Records are state property. All records made or received by or under the authority of or coming into the
  custody, control or possession of public officials of the state in the course of their public duties are the
  property of the state and shall not be mutilated, destroyed, transferred, removed or otherwise damaged or
  disposed of, in whole or in part, except as provided by law or by rule.
- Record means a document, book, paper, electronic record, photograph, sound recording or other
  material, regardless of physical form or characteristics, made, produced, executed or received pursuant to
  law in connection with the transaction of official business of state government. Record does not include
  library and museum related material made or acquired and preserved solely for reference or exhibition
  purposes or stocks of publications and unprocessed forms.
- Iowa Code Chapter 305 gives the State Records Commission the authority and responsibility to work with agency heads to develop records series retention and disposition schedules. These retention schedules describe the length of time records series of an agency or multiple agencies must be retained in active and inactive status and provide authorization for a final disposition of the records series by destruction or permanent retention. In order to implement the approved retention schedules at the agency level, agency heads are responsible for appointing one or more records officers to be the point of contact with the state archives and records program. Every records officer has a copy of the state records manual which includes retention schedules for all state government records.

## How do I know if something I have needs to be retained?

As you participate in clean out your office day, ask your agency records officer(s) to assist you in using State Records Commission approved retention schedules to assist you in determining:

- which records have not yet fulfilled their in-office retention requirements and therefore must be kept for a longer length of time,
- which records have fulfilled their in-office retention requirements and are eligible for transfer to the state records center,
- which records have fulfilled their in-office retention requirements and are eligible for transfer to the State Archives for permanent preservation, and finally
- which records have fulfilled their in-office retention requirements <u>and</u> can be destroyed directly from your office. [If you have not already done so, I encourage you to recycle this category of records on clean out your office day].

## Who are the Records Officers in my agency?

Agency	Sub-unit	Records officer(s)
